I had taken the 28 hour G license course many years ago in Fort Lauderdale and I found it dreadfully tedious, so the thought of having to take this training again was painful. I was incredibly pleased to see that Invictus' training was far from the dread I had experienced and was, in fact, very enjoyable. The instructors are friendly and highly knowledgeable, not to mention captivating. They deliver material that is not inherently interesting with such passion and add so many examples taken from their vast knowledge of security that you hardly see the time pass by. I really enjoyed this class and recommend Invictus to anyone looking for true professionals in the field of security training.

By far one of the most professional, efficient, and effective training programs I have been through since I left the military! The instructors were incredibly knowledgeable, patient, and professional. It is easy to see why this company has quickly developed such a high reputation training courses and security/protection work. Can't wait to see them expand to Broward and Miami/Dade Counties very very soon!

Thank you Invictus for everything!
